President's Message: **Happy New Year to All!**

Here starts a new year and it will bring some changes to our club. Upon your acceptance at the January meeting, there will be four new board members. They are Tom Johnson, Newton Weiss, Al Musico and Bob Schuh. Please welcome them and let them know you are willing to help with their club functions.

As for the departing board members, Ed Brown and Mike Levine, I would personally like to thank them for their work and support. It is people like these who make our organization special.

Two existing board members are up for reelection: Perry London and me. So, if you don't mind, we will give it another shot

I hope all of you who attended our December meeting had an opportunity to visit our apparel table. For those who didn't make it, we now have hats, tee shirts and you can order embroidered Columbia shirts.

Congratulations to Joe Cafferelli for being the first winner of our species of the month contest! Remember December species is sheepshead. Call your catch into Seaweed.

December is the final month for the annual fishing tournament. Make sure you call in your big fish if you want to qualify for the award

Wright Taylor from the Coastal Conservation Association (CCA) will be our guest speaker at the January meeting. He will discuss Florida Fisheries. I expect this to be very informative.

Dave Walsh told me that the upcoming picnics for January and February will be show stoppers! The January picnic will be catered by Chief's Express and February will be "Febrewfest II" catered by Peppers.

Please remember, we are always looking for new ideas to better this club. If you have an idea, let us know.

On behalf of the board we would like to wish all of you a Healthy and Happy New Year!

Remember, you can't catch from the couch (unless your couch is on the dock)

Regards, Peter Arcidiacono

RODS/REELS REPAIRED by club members: Pete Arcidiacono 394-1136 and Nate Broder 394-2394

SEAWEED SEZ: To cut down on line twist when using a spinning reel; always close the bail with your finger; do not crank the handle to close.

Also, if you are snagged or a hooked fish is running, do not keep cranking the handle. If you are not bringing in line with each crank, you are twisting the line. Raise the rod tip up; pull the fish in closer, then crank as you lower the rod.

EDITORS NOTE: For Sale items are printed for one month only. They are not automatically reprinted. We would be happy to run yours again. Just email your request to asegal1519@cs.com.
