President's Message for March 2024

Fellow Anglers,

February brought a flurry of activity and fantastic catches, and with March upon us, the Southwest Florida season is truly in full swing! The weather warms, the sun shines brighter, and the fish bite with renewed aggression. It's time to dust off and restock your tackle box and get ready for another month of exciting events and camaraderie on the water with your Marco Sportfishing Club family.

Looking Back at February:

February 1st: We kicked off the month with Captain Mike Merritt's insightful talk on winter backwater fishing, equipping us with tips and tricks for landing those trophy snook and redfish. *60lb test? Who knew?*

February 4th: The "Pompano Double Down" concluded with some impressive catches, and the winners will be announced at the March General Meeting.

February 7th & 8th: Dale Rod's "Sheepshead Shindig" took center stage, culminating in an exciting weigh-in on the afternoon of the 8th and awards dinner on February 12th, at St. Mark's Parish Hall.

February 21st: We welcomed back Dave and Susie Walsh for the 19th annual "FeBREWfest" picnic – a nostalgic return to the picnics of old!

February 22nd: Joe Perino's 2nd "Buddy Trip" offered a day of fishing followed by a delightful gathering at Paradise Found restaurant.

February 27th: Howard Laskau led a thrilling kayak fishing adventure to Everglades City, exploring the wonders of Everglades National Park.

March Madness:

This month promises an action-packed calendar, with something for every member. Here's a glimpse:

March 1st - 31st: The Offshore Slam continues its quest for glory, seeking calmer waters and bigger catches.

Beyond the Events:

As the fish bite heats up and the sun warms our faces, remember that the Marco Sportfishing Club is more than just a club. The true magic of the Marco Sportfishing Club lies in the bonds we forge over shared passions. March offers endless opportunities to connect with fellow anglers, learn new techniques, and create lasting memories. Whether you join a fishing tournament, attend a meeting, or simply share a laugh at one of our social events, remember that the camaraderie is just as valuable as the catch.

So, grab your rods, sunscreen, and a positive attitude, and let's make the most of this beautiful season together. Good times await!

If you can – get out and fish!!

Offshore Update – March 2024

What's Happening Offshore...

Someone please turn off the big fan!!! It's been difficult to find a calm day to fish this year, but on those rare calm days fishing has been pretty good offshore. Red Grouper are out there on live / hard bottom, with the larger fish in the deeper water (100'+), get them while you can as we expect another early season closure is coming...also please remember that grouper is closed west of the 20 fathom line through March 31, 2024 (if you don't know where this line is you can get the coordinates off the FWC website, it is generally around 120', but SW of here the line moves into shallower water). Snapper can be caught at all depths (bigger fish usually being in deeper water) near reefs / wrecks / towers and on ledges / live bottom. You can drift for them, but best method (in my opinion) is to locate them and anchor / chum. Kingfish may be around structure depending upon water temperature (they like mid to upper 70's) and can be a by-catch while Snapper fishing, if you get bit off on the initial strike in the chum slick (not the second "upgrade" strike) put out a Kingfish rig with wire and see what happens. Cobia have been around the area on structure, seems like they haven't gone fully south this season so they may be around until late spring at least. Keep a jig or live bait at the ready in case a Cobia swims up to the boat. African Pompano can be found typically near structure and as shallow as 80'. AJ's are around structure as well and have been abundant on some of the grouper bottom in 105' and deeper (look for them to stick around until season opens), they are fun to bend a rod if you are looking for a great fight. Keep an eye out for Bonito and Spanish Mackerel feeding on the bait schools, look for surface activity and working birds to locate them, they are lots of fun on light tackle – don't forget the wire leader for the Mackerel! Trolling lures or drifting larger live baits on the outer edges of the Spanish Mackerel schools may find a hungry King too. Permit will start to migrate back to the higher elevation reefs and towers soon when the water temperatures begin to rise.

Pick a calm day and get out there and have some fun...and be safe.

Buddy Trip February 22, 2024

The trip consisted of seven boats carrying twenty-one anglers. We started at marker 26 on the Goodland side of the Jolly Bridge. Three boats from the north traveled south to meet three other boats at Coon Key. One of the seven boats tried fishing on the north side of the island.

The weather started out cool in the morning but warmed up to a pleasant temperature in the afternoon. The wind was gentle with light breezes. All in all, it was a delightful day to be on the water.

The catch consisted of silver trout, speckled trout, sheepshead, whiting, snapper and of course an abundance of catfish.

That evening, when the sun came down there was an atmosphere of relaxation and camaraderie, with cocktails and dinner at Paradise Found Restaurant. This completed a fantastic day of being with friends. The gathering consisted of about 35 people.

The next Buddy Trip will be on Thursday, March 21, 2024. If you wish to join the Buddy List email Joe Perino at rivpress@aol.com.
